WORK HISTORY

Quality Assurance Developer

Authox · June 2025 – Present · Full-time, Hybrid · Islamabad, Pakistan

Assist in designing, developing, and testing software applications using ASP.NET MVC & .NET Framework. Collaborate with cross-functional teams, write clean maintainable code, and participate in the full software development lifecycle.

Key Projects:

- accounting-marketplace – Accounting & marketplace platform (TypeScript)
- MediFind Admin Web Portal – Healthcare admin dashboard (JavaScript)
- MediFind Healthcare Emergency & Assistance System – Mobile app (Dart/Flutter)
- OTP Verification Project – Secure OTP system (C#)
- UserForm Frontend & Backend – Full-stack user form system (JavaScript / C#)
- NestJS RestAPIs – RESTful API services (TypeScript/NestJS)
- Login System QR Based – QR authentication desktop & backend app
- MouseMoverHelper & MouseCourserMoverService – Windows micro-service (C#)
- MAUTH Authenticator – Multi-auth application (HTML)
- OTP Verification via Email – ASP.NET Core Web API, Twilio, SMTP & MySQL
- TOTP Verification App – Java Spring Boot & Google Authenticator

QA Project Manager & WordPress Developer

Corammers · October 2025 – February 2026 · Contract, Remote · Rawalpindi, Pakistan

Joined as QA-Specialist Intern, promoted to QA-Project Manager within one month. Oversaw QA activities, coordinated development teams, managed project timelines, ensured quality standards, and prepared stakeholder progress reports.
